PASSIONATELY DESIGNED,  
**EXCEPTIONALLY CRAFTED.**

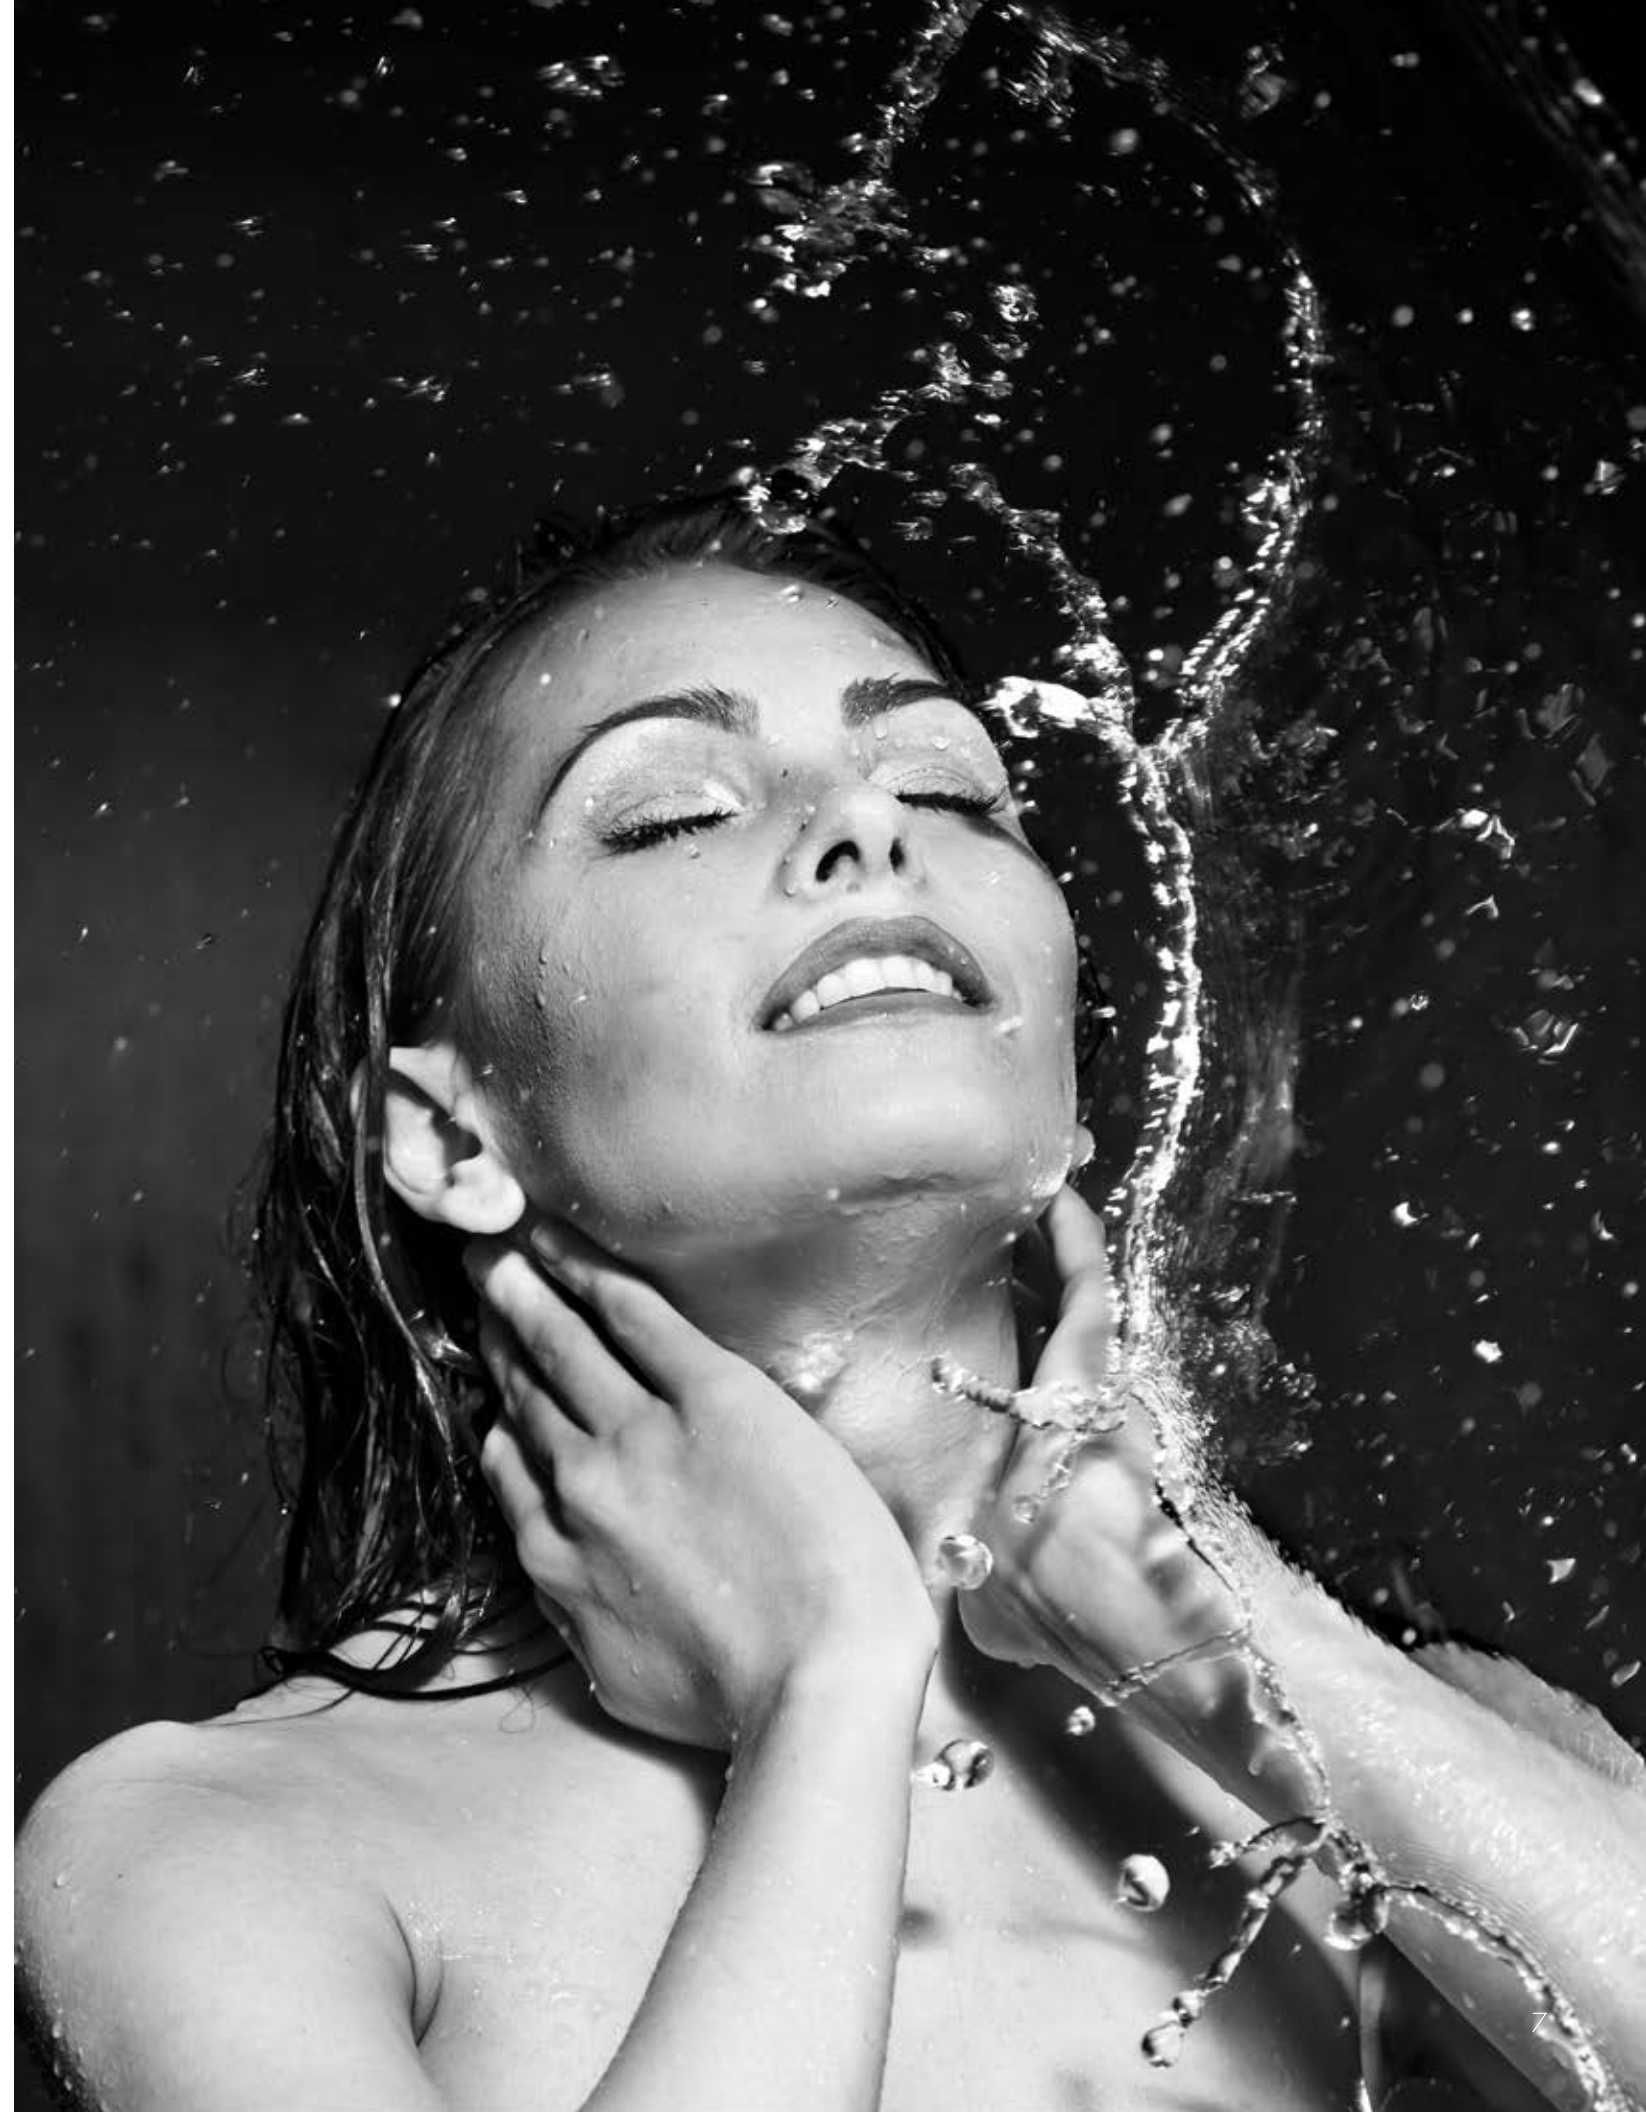

# THE STORY

Why make a product that a lot of companies already offer by the thousands? What's the point? Revenue growth? Yes, sure! Why not! That's one of the reasons. But then that's just what gets us started. Like any other brand. However, unlike most other brands, we are intensely driven by the passion to innovate and to bring to the market products that are ground breaking in not just aesthetics, but also in function and longevity. We are driven by the way our products perform over their lifecycles. At this point in history, a key driver of any manufacturing facility should be to see not just how green it is in the way the product is made, but also how green it's products are over time. Simply put, if you make something that will last twice as long as something else, you've immediately halved the environmental resources being consumed.

With that in mind, we set forth on our journey to create possibly one of largest collections of 100% stainless steel bath accessories offered by a single brand across the entire planet. A behemoth of a task that's been made possible by endless days of round the clock work by our dedicated design and manufacturing teams.

*We truly hope you find as much happiness in using our products as we did while making them.*

NOT ALL STEELS  
**ARE CREATED EQUAL**

## THE QUEST FOR PERFECTION

THE JOURNEY OF MAKING A PERFECT PRODUCT BEGINS WITH FINDING THE PERFECT ORE THAT MAKES THE PERFECT STEEL. WE ROAM THE GLOBE TO ENSURE ONLY THE FINEST STAINLESS STEEL FINDS ITS WAY TO YOUR HOME.

neelnox

**AND THE PERFECT STEEL IS  
JUST THE BEGINNING.  
ON TO THE WELL KEPT  
SECRET.**

## **THE METAMORPHOSIS**

ONCE WE'VE FOUND THE PERFECT STAINLESS STEEL, IT BEGINS IT'S METAMORPHOSIS. WHAT WAS ONCE JUST AN ORE, IS ABOUT TO FIND IT'S PURPOSE. OVER 50 YEARS OF REFINING AND RESEARCHING HAS LED US TO A FLAWLESS FINISH. AND THE PROCESS IS A WELL KEPT SECRET.

neelnox

THE BEACON OF  
**EXTRAORDINARY EFFORT**

Design is to civilization as civilization is to life. As we evolved as human beings, we went on to create civilizations. And as civilizations reached their advanced stages, the development of design became an inevitability. Design soon became the beacon of extra ordinary effort. The effort to make the world a beautiful place. A well functioning place.

We often approach products, both new and existing ones, with a goal of breaking the barriers of thoughts that have engulfed them and shaped them into their current existence. It is this approach that has led us to introduce some of the products that world hadn't yet seen. Our intent is to reinvent the necessities. Rethink them. Recreate them to meet audacious levels of perfection.

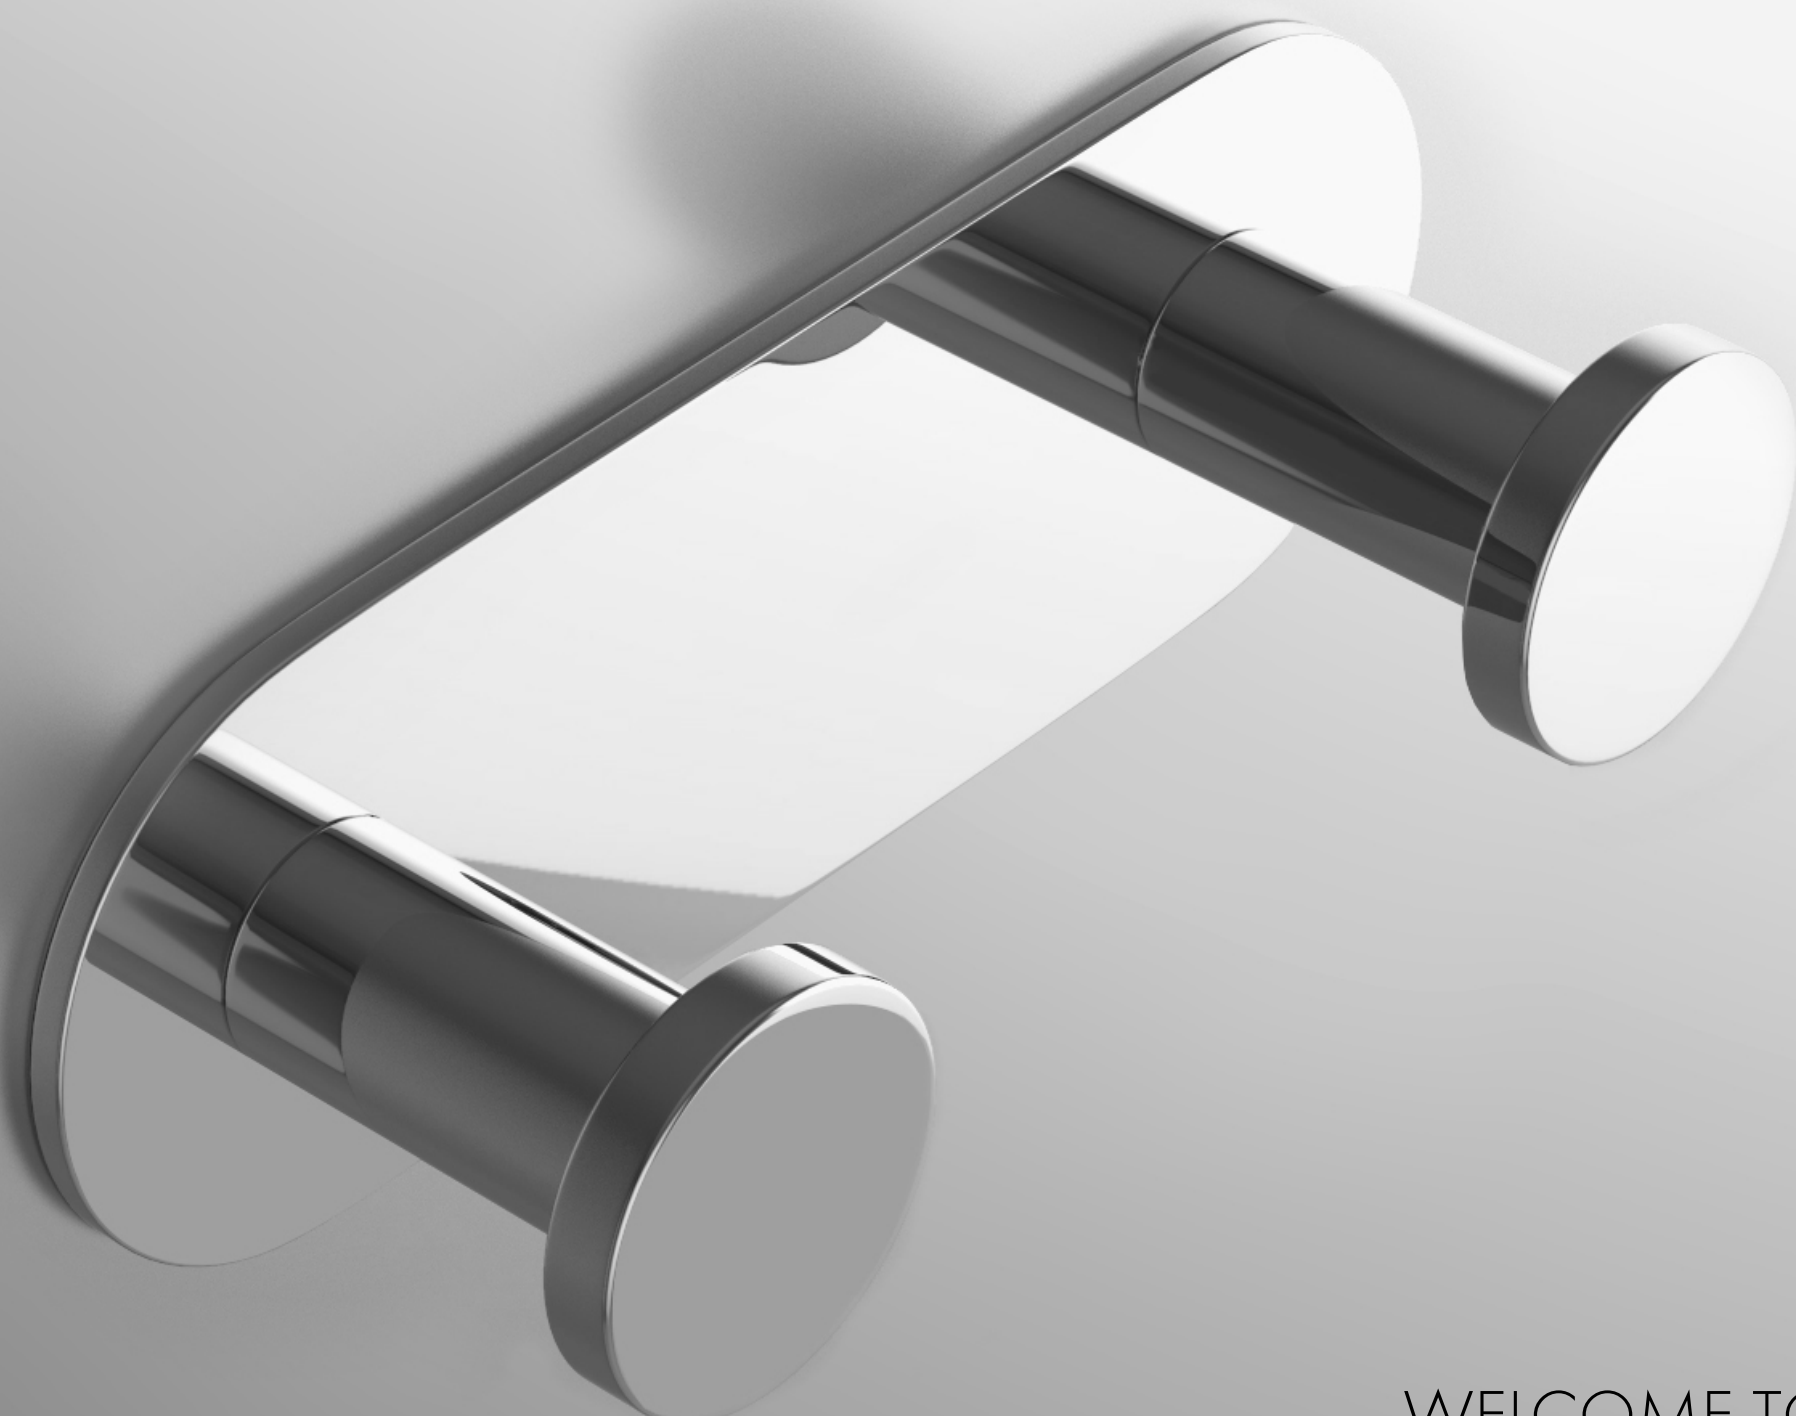

LET THERE BE **DESIGN**

**AN EXCEPTIONAL METAL**

Simply put, stainless steel is a superior metal. It holds it's finish and luster longer, shines better and is the original finish that most plated products try to emulate. It is the real deal.

While most products are plated with chrome or nickel, both these metals are present in relative abundance in stainless steel and hence it requires no plating. It is one of the hardest to polish and finish and that is one of the chief reasons why it holds it's finish much longer.

WELCOME TO  
THE ERA OF  
**STAINLESS STEEL**  
ACCESSORIES

ECO-FRIENDLY,  
**LOW CARBON FOOTPRINT.**

Stainless steel is a green product. It is the endorsed material for green building the world over. With a minimal impact on the environment and it's incredible longevity, it is a go-to material for sustainable living.

It is 100% recyclable and has amongst the lowest of CO<sub>2</sub> emissions required for production. It's carbon footprint is significantly smaller in comparison to most metals. To take all this a step further, it is virtually maintenance free which further lightens it's life cycle impact on our planet.

**GO GREEN.  
STAINLESS STEEL IS  
SUSTAINABLE &  
ECO-FRIENDLY**
